

Club Vision, Mission & Values

Vision

To promote, empower and maximise potential and inclusion through the sport of wheelchair rugby

Mission

We will offer and promote the sport of wheelchair rugby, to enable participation in team sport and to provide the benefits of physical activity and achievement of personal potential.

We will create an inclusive environment that is safe, positive and supportive and enables all players to participate fully, to aim higher and to achieve more for themselves.

We will provide opportunities to play and compete within GBWR and the wider rugby community to the best of our abilities; creating chances to improve individually as players and people and as a team.

We will create the social interactions that will enhance social inclusion, fostering friendships and camaraderie.

We will unite the community and inspire the public by promoting the sport of wheelchair rugby and the club in our local communities and beyond and in so doing will endeavour to break down barriers for disabled people in society by demonstrating participation, excellence and achievement.
